

Rallybound Information for Walkers

- This new platform will require each person to register as a NEW participant for this year only with a unique email.
- For children or those on your team who don't have an email address, the you will need to register them during your own registration process. This will create what is called a "managed account".
 - You will be the only one who can update that person's fundraising page or send out emails on their behalf to fundraise.
 - If that person gets an email, let your local staff partner know and he/she can update the account.
- When you register, you will need to verify your email address in order to access your Walk Dashboard. This is a one-time verification.
- You can have co-captains, just let us know who on the team should have that designation and we'll update it for you.
- You can create a unique URL for your team and your personal page. We highly recommend doing this to make it as easy to share out your link.
- NEW this year, you can update your profile and cover photo! Share a little Kidney Walk fun from the past in both these photos!
